University Institute of Fashion Technology and Vocational Development is an in -Campus Institute, established by the Panjab University, Chandigarh in 2007 a commitment to carry forward its goal of providing trained professionals for the fast growing Fashion, Apparel and Textile Industry in the region in particular and the country in general.

UIFT&VD presently offers a prestigious Five Year Integrated B.Sc. & M.Sc. Degree in Fashion and Lifestyle Technology. The program is laid out in a semester system.

First three years of the course comprise of Foundation and Core Studies. One quarter of the sixth semester entails Industrial Training with an option for an Industry/Design Project. The students will be awarded a B.Sc. Degree in Fashion & Lifestyle Technology at this stage.

Two years spent in M.Sc. Fashion & Lifestyle Technology will have the students undergo extensive specialized project based study related to organizing and management of a Fashion and Lifestyle enterprise. 6 months Apprenticeship Training in the corporate and/or the industry will be a part of the Post Graduation Program.

Lateral entry in the M.Sc. course will be permitted if there are any seats left vacant due to dropping out of students after attaining B.Sc. Degree.

Highly trained and experienced faculty is involved in giving intensive theoretical and practical inputs and the students are being assisted in task based studies to develop their skills to face the challenging requirements of the Fashion Industry. The Department is liaising with fashion related organizations for training of the students to help them to develop skills in handling latest technology. This shall enable the industry and the corporate to have access to the students of UIFT for their placement before they complete their 6th/ 10th semester. With the coming up of the Fashion Technology Park in nearby Mohali, the Department is at an advantageous position as regards a tie-up for avenues for the students in FTP as also other allied institutions, textile and apparel industries and export houses in and around the region.

UIFT is in the process of setting up its “intelligent building” complete with laboratories, an amphitheater and resource centre outfitted with state of the art equipment for hand on experience of the students. The vision is to create the finest institution in the country in all aspects and terms.
