

**Hon'ble Shri Jagdeep Dhankhar, Vice President of India and Chancellor, Panjab University, Chandigarh**

## Vice-Chancellor's Message

The world today is one large global village and India can impart leadership in coordinating the concerns of various stakeholders. The geo- strategic position of Panjab University has great significance. Emerging trends in the politico-economic arena have demonstrated the academic occupation with the region wherein many research agencies are endeavoring to collaborate with Panjab University. The university has expanded its influence by signing and maintaining more than a hundred MoUs globally. The university is prepared for any contemporary challenges through its research centers not just to work towards the development of technology but also to bring out policy drafts in terms of better utilization of natural resources and efficient coordination of community participation. During the past financial year i.e. 2023-24, Government of India agencies such as the UGC, DST, GOI and ICMR have granted funding to Panjab University to the tune of Rs. 3830.67 Lakhs.

A University cannot exist in isolation without establishing contact with its surrounding community. It is the mission of the university to reach every needy section of society and outreach programs are conducted to improve awareness in terms of the *swachta abhiyaan*, legal awareness and general empowerment in the surrounding villages. The university has advised its departments to constitute special committees to materialize outreach programs so that the villages can enjoy the government initiative and offer real contribution to the idea of resurgent India. The NSS, Enactus and the Natural Biodiversity group are regular participants in the inclusive development mission of the nation. Since its inception, Panjab University students have shown their excellence in sports also. Since the installation of the MAKATROPHY in 1959, Panjab University has won it 16 times. Panjab University has performed exceptionally well in Khelo India games.

The Panjab University has remained aware of its responsibilities in the emerging world where academia and industry have to come together on one platform to materialize concepts into concrete products. Keeping this mission in mind, the University has constituted various verticals like *Centre for Industry-Institute Partnership Programme (CIIPP)*, *Technology Enabling Centre (TEC)*, *Centre for Skill Development and Entrepreneurship (CSDE)*, *BioNest*, *Centre for Policy Research*, *University Centre for Sophisticated Analytical Instrumentation Facility (SAIF)*, *Design Innovation Centre (DIC)* and *Institution's Innovation Council (ICC)*.

By 2047, India will be on its way to achieve inclusive and equitable quality education and promote lifelong learning opportunities for all. Such a lofty goal requires that we strengthen our position and efforts based on our glorious traditions of knowledge propagation and self-reliant living. With a more vibrant nation, a responsive leadership and a proactive society, I wish each one of you, every success in this new chapter of your life. I would like to end with this quote: "Those **seeking knowledge, will gain knowledge**"

**PANJAB UNIVERSITY, CHANDIGARH****MESSAGE  
FROM THE DESK OF THE  
DEAN OF UNIVERSITY INSTRUCTION**

**Prof. Rumina Sethi**  
**Dean of University Instruction**

It gives me pleasure to release the new Handbook of Information - 2024 (Academic Session 2024-2025), a document that contains all important and relevant information for teachers and students of this university.

The Panjab University, over the last century and a half, has established itself at the forefront of excellence and international standing, with the emphasis on pedagogical innovations and interdisciplinary studies designed for producing a community of citizens adequately equipped to take the country towards new frontiers of knowledge in the disciplines of business, entrepreneurship, the arts, literature, science and culture. Our aim is to provide a compassionate, socially inclusive and academically conducive milieu.

I am also happy to announce that Panjab University has implemented NEP-2020 in various Teaching Departments of Panjab University from the session 2023-2024 and will be implemented in all Teaching Departments as well as in affiliated colleges from the session 2024.

It is a source of enormous gratification that Panjab University has been ranked second in the prestigious ATAL ranking of Institutes on Innovation Achievements (ARIIA)-2021, a result of our exceedingly striving and committed faculty. The university has been accredited with a CGPA of 3.68 on a four-point scale at A++ Grade. It must be kept in mind that the Panjab University lays equal emphasis on academics and sports. We received the Maulana Abul Kalam Azad Trophy (MAKA) sixteen times and have performed remarkably well in Khelo India games. Ranked as 8<sup>th</sup> in best global universities in India by the US News - Best Global University Rankings 2022-2023 and 9<sup>th</sup> in India by Centre for World University rankings (CWUR) 2023-24, we continue to feel all the more inspired to not rest on our laurels, but to stride ahead in every field. As per The Centre for World University Rankings (CWUR) we are among the top 4 % of Higher Education Institutions globally for 2023-24. I would like to assure everyone that we at the university stay committed not just to maintaining its status as a national leader, but also to drawing worldwide recognition. We have never stopped taking pains in sustaining a close relationship with our Alumni through periodic events, knowing fully well that they remain an integral part of our history.

I hope that the Handbook will serve both as a monitor for students seeking admission to the University and its regional campuses, as well as an inspiration for a more meaningful and thriving future, giving rise to competent democratic citizens. I wish you all every success in our collective aspirations towards international excellence, and a competence to deal with complex national and global problems. We have always thought education must teach every student to think critically and become well-informed, productive and empathetic individuals. This, to my mind, is the deepest purpose of education.

#### 7. Preparation of Merit Lists / Normalization of Marks

Admission to both the (General and Reserved) categories of seats shall be on the basis of merit within each category and the merit list shall be prepared as per these Rules. The basis for preparation of the provisional merit list shall be as follows:

Marks of other Universities will be normalized to 2400 marks which are 3 years aggregate marks of B.A./B.Sc. (Gen.) of Panjab University. Similarly, marks obtained by the candidates in the relevant subject will be normalized to 600 marks which is the total of 3 years aggregate marks of B.A./B.Sc. (Gen.) of elective subjects of Panjab University. The normalization procedure is explained below:-

- a) The marks obtained by a candidate in B.A./B.Sc. will be normalized on the basis of an aggregate. For example, if a student has scored 495 marks out of total of 900 marks in B.A./B.Sc., his normalized aggregate marks (out of 2400) would be :-  $495 \times 2400/900 = 1320$  out of 2400  
These marks will be denoted by **X** and called the **Basic Merit Marks**.
- b) The marks in the relevant subject (i.e., the subject in which the admission is sought) will be normalized by changing the marks allotted to the relevant subject to 600 in order to give advantage of the subject to a candidate. For example, if a candidate has obtained 240 marks out of 300 in the relevant subject, then the normalized marks in the subject would be :  $240 \times 600/300 = 480$  out of 600 These may be denoted by **Y**.  
Some universities award B.A./B.Sc. degree on the basis of aggregate marks of B.A./B.Sc. 2nd and 3rd years. In that case the aggregate marks and the marks of the relevant subject in which the applicant is seeking admission, will be considered on the basis of marks obtained in B.A./B.Sc. 2nd and 3rd years only for calculation of the basic merit marks and in the relevant subject.

In some cases, there could be students who have not studied the relevant subject, or the study of the subject is too elementary to be equated with the standard of B.A./B.Sc. level of Panjab University in the subject in which they are seeking admission in Post-graduate course. For such category of students **Y** is taken to be zero.

Candidates having passed B.A./B.Sc. from other universities with 4 elective subjects in addition to optional subjects at B.A./B.Sc. level shall not be given any credit under **Y**, i.e. **Y** shall be taken to be zero

- c) (i) Candidates who have passed B.A./B.Sc./B.Com. with Hons. Either from Panjab University or from any other University would be **given 15% weightage** of the basic merit marks **X** obtained for the purpose of admission in Post-graduate course in the subject in which Honours examination was passed. Similar weightage would be given to candidates who have passed B.A./B.Sc./B.Com. Examination according to Hons. Like system specializing in one subject in which the admission is sought for the P.G. course.

**For the purpose of admission to LL.M. courses under Panjab University:**

Candidates who have passed B.A.LL.B (Hons.), B.Com.LL.B (Hons.), BBA.LL.B. (Hons.) and LL.B. (Hons.) either

from Panjab University or from any other University would be given 15% weightage of the basic merit marks, if certificate / DMC / Degree of candidate specify Hons. as per BCI rules.

Explicitly this weightage would be denoted by Z and calculated as follows:

$$Z = X \times 15/100$$

- (ii) Candidates who have passed a Special Degree from another University will be treated at par with B.A. Examination of Panjab University with Honours in the relevant subject provided the B.A. Special Degree is recognized as equivalent to the corresponding B.A. with Honours Degree of Panjab University in the relevant subject.
- d) Where no test is required for admission, the **final Merit marks** of a candidate would be **X+Y+Z+ other weightages** as prescribed at 12.1 and 12.2. Other weightages as prescribed at 16.1 and 16.2 would be calculated on the basic merit marks **X**.
- e) The process of calculation of percentile scores for admission to B.Sc (Hons.) and B.Pharm. courses will be as follows: For the B.Sc. (Hons.) admissions, the final merit should be prepared on the basis of merit consisting of three components (i) CET merit with weightage 75 %, (ii) 10+2 examination merit with weightage 25 %, and (iii) over and above weightage of NCC, NSS, etc.
- For preparing the combined merit of CET for the two streams of students with (i) Physics, Chemistry and Mathematics combination and (ii) Physics, Chemistry and Biology combination, the two streams should be evaluated independently. The final merit list for the admission to B.Sc. (Hons.) under the framework of Honours System should be prepared by adding (i) CET percentile score with 75 % weightage, (ii) 10+2 examination marks with 25 % weightage, and (iii) over and above weightage of NCC, NSS, etc. in terms of marks. The CET percentile score (P) for the qualified candidates from the two streams (i) and (ii) will be calculated separately using the formula

$$P = \left[ \frac{N - R}{N} \right] \times 100$$

where R is the rank of the candidate in the merit list of that stream and N is the total number of candidates appeared in that stream. For example, if the number of candidates appearing in a stream (i) is 4000. For a candidate ranking at 485th position in the merit of stream (i), the percentile score of the candidate will be

$$P = \left[ \frac{4000 - 485}{4000} \right] \times 100 = 87.875$$

The final combined merit list for the two streams will be based on Total merit marks = 0.75\*P + 0.25\*Q + weightages for other activities; where P is the CET percentile score, Q is the percentage total marks in the PCB (Physics, Chemistry & Biology) or PCM (Physics, Chemistry & Mathematics) subjects in the 10+2 or its equivalent examinations. For the courses where candidates with PCM and PCB combinations are eligible for admission, the higher of the two will be taken for calculating the Q component. Weightages for activities like NCC, NSS etc. as mentioned in the handbook of information, if any, will be calculated on the above mentioned Q component. Total merit marks will be calculated up to third decimal place. Any changes in the marks of the qualifying examination (10+2 class) or its equivalent examination or other weightages in any case will simply change the total merit marks of that student and merit list will be updated accordingly.

For admission to B.Sc. (Hons.) under the framework of Honours School System (CBCS) in mathematics where the admission is based only on marks obtained in mathematics in CET, the marks obtained in CET in Mathematics, called  $X_1$ , will be calculated out of 120. The total marks obtained in 10+2 examination (taking all subjects into consideration) will be calculated out of 40 called  $Y_1$  (i.e. if T = total marks, M = Marks obtained then  $Y_1 = (M/T) \times 40$ , calculate to 2 decimal places. The merit for admission will be  $X_1 + Y_1$  out of 160.
